# I Am Kitty the Kitten

Miau - My name is Kitty the Kitten and I tell about the first year of my life through photos. I was born in the Finnish countryside in April and moved to a new home in June. As a puppy, I was wild and lively - carpets displaced and flower-pots on the floor. I was always playing and running around. I visited the nearby hamlet and beaches with my household. The photo book will also reveal the sort of drinking cup, which never runs out of water

**I looked from the doorway, seeing whether I would dare to enter, and then I took a brave step over the threshold.**

**Eventually I found what I was looking for - my cup - just as well as I was already a bit hungry. But I must admit, food here is rather good.**

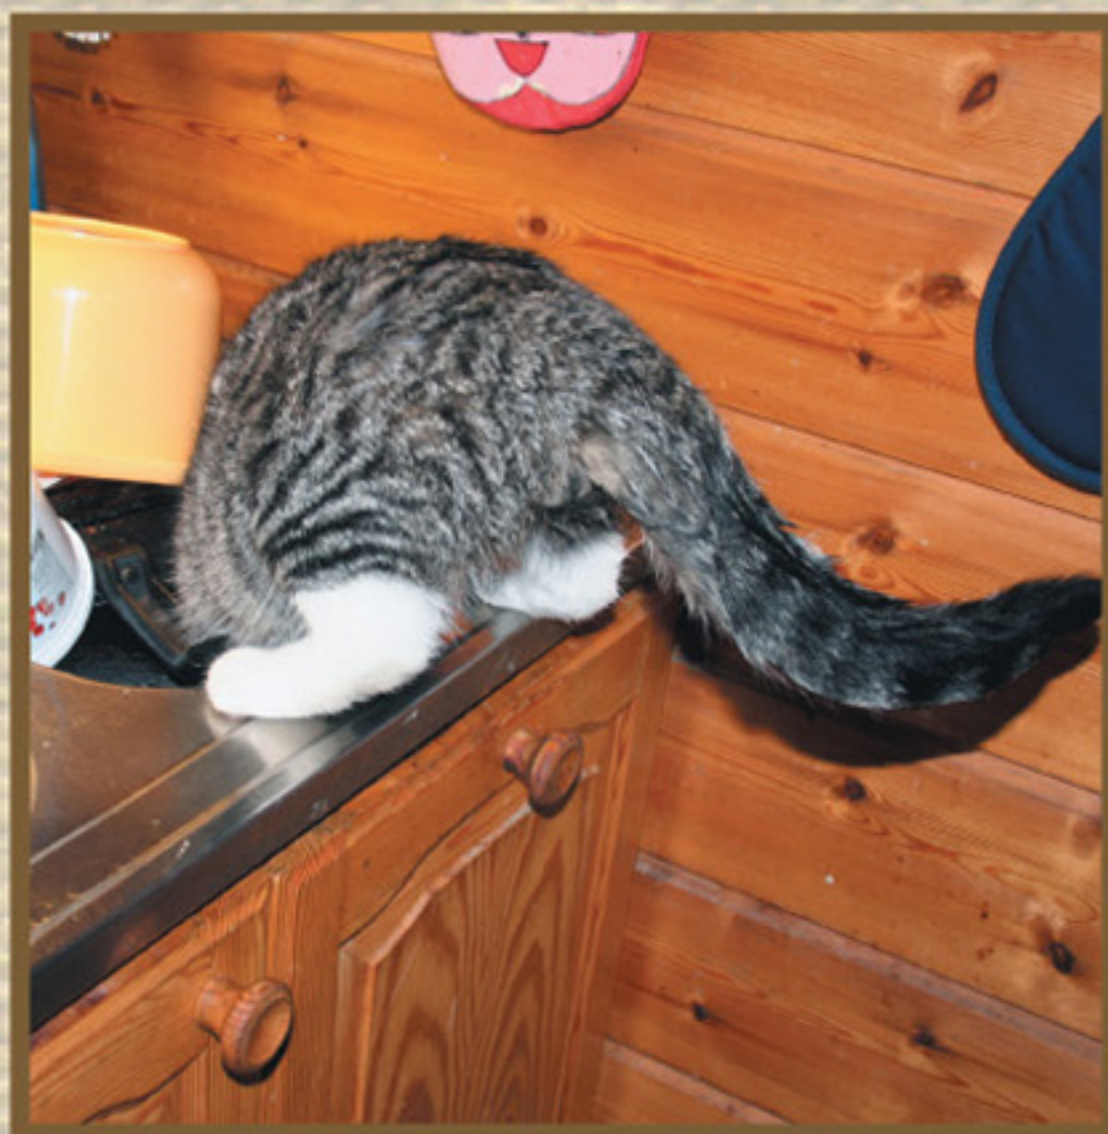

**Here's my bowl, but it's empty.**

**Empty bowl - but perhaps there's something good in this box.**

Playing with a ball I got as a present.
