I received a strange email from Dong Jin Kim:

“hello

is for sale softwille.fi

let me know

“

It was a bit strange, I have been receiving a lots of purchase offers for the premium LLL dot com domain sot.com, but now someone is trying to buy a local .fi domain of one of my companies. The name is not very attractive, so who would like to buy that domain?

In September 2017 someone tried to steal a valuable internet domain name SOT.COM. This is a real story about what happened and how to control of the domain was returned to it's rightful owner. You will also get some advice how to prevent domain theft and what to do in an unfortunate event of a domain theft. There is no ebook available to protect your interests, in an unfortunate event when you most need this book you possibly may not have access to your ebooks.
