Seeking our treasure in the Garden of Dreams, swimming with dolphins in hyperspace, riding our lion through the desert to the secrets of the Sphinx and the Great Pyramid and awakening to Higher Consciousness are maybe just dreams or products of our imagination. Or could it be they are more than that?

When reading this book, we embark on an inner journey in which the dream state, being awake and the Higher Consciousness experience overlap, leading us inevitably towards our true treasure, the **Light body** and our collective **I Am that I Am** - essence.

With its sense of adventure, poetic rhythm and spiritual-scientific theme, the story is set to inspire both young and adult "treasure seekers" alike. Within each of us lies a golden inner child, who can see beyond the ordinary and who we need to learn to love and cherish in order to free our mind from the illusions of this material "world of dreams" and to orient ourselves towards our higher purpose.

Throughout the entire book there is the **Consciousness Song for Treasure Seekers** - poem progressing as a "blue river of words" that functions like a "book within a book". It can be read separately as a standalone text.
