# To BEGIN

To begin  
Was something, out of my reach  
Hi-tone peak  
To my ears  
Made me waste, the tears

Little bit older  
No money in bank  
Or pocket  
No Lisa or Beth  
Wow, how much  
Empty room in my bed  
In my head

A

round 11 years old, in school.

Class of drawing was on.

With oil pastels I did a Sahara desert.

Blue sky, light brown / orange sand, brown camel,  
green leaves of palm, Big yellow sun.

I remember staring the ready work for a long time.

Feeling something meaningful, for me, came from Desert I made.

Bit later I was teenager in country village.

Bit lost as teenagers are, and not sure where to aim.

The Ramones second album, Leave Home was a pop album  
of the week in national radio.

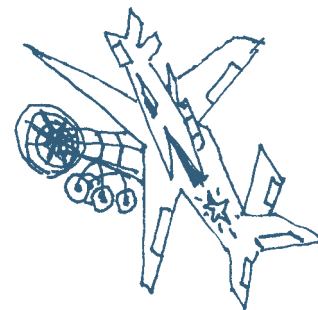

Ever since it has been clear path.

Do stuff, have a band (22-Pistepirkko). Music and pictures.

I'm build the way that I like to show what I do,

And to perform is

A joy for me.

So I have a good spot to be.

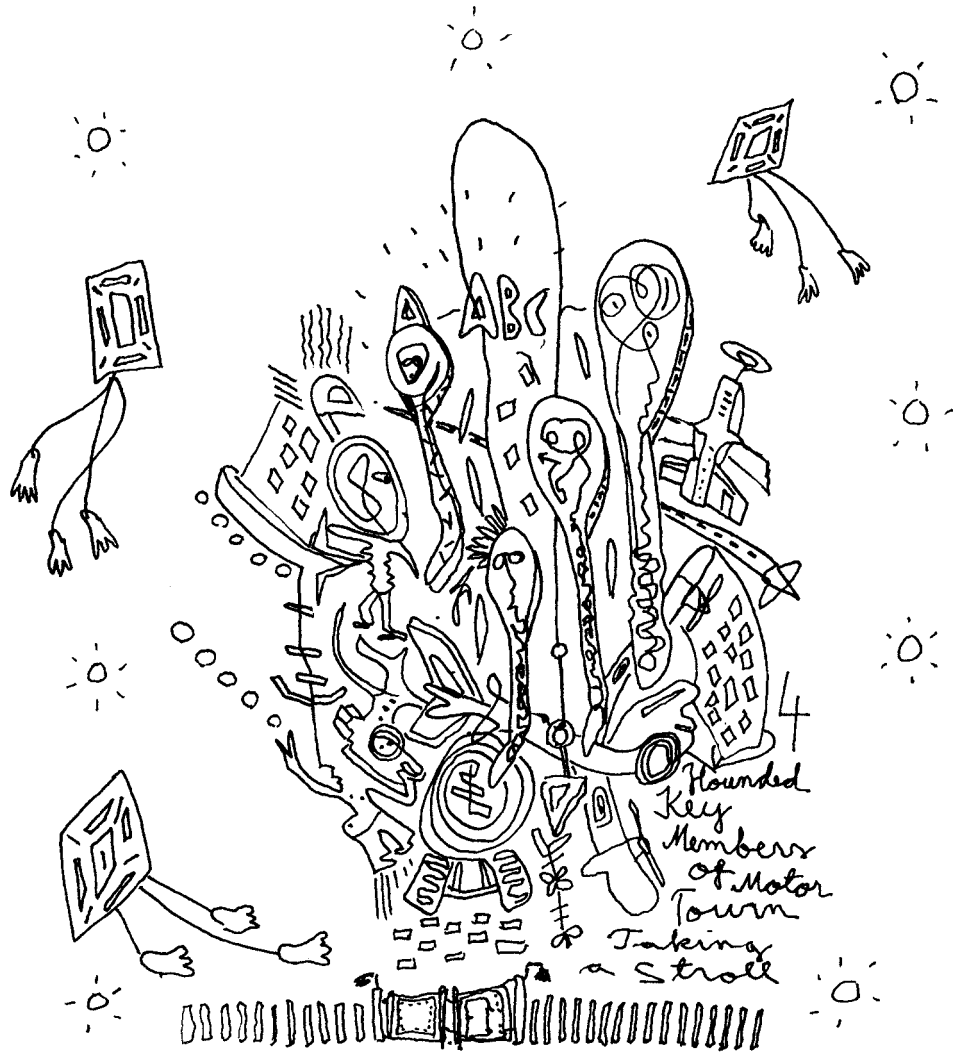

Where the songs, stories, poems and pictures come?

Someone said that ideas are looking people who cares about them.

If y do, they'll come around, like kind smiling rain.
