## CHURCH BUILDING CONFERENCE AREA DOWNSTAIRS

I was in the back part of the meeting room on my knees praying when a Romany child in a wheelchair was brought in.

About 8 -10 Pentecostal brothers started praying for the child. After perhaps 10 minutes the Spirit of God said to me "You go pray."

I was hesitating at first but after the third time I heard it I obeyed. I went to the brothers and said in a loud voice "excuse me brothers" and put my arms in a wedge shape and the group of brothers let me in.

I felt Gods power and presence.

I knelt down before the wheelchair. I quietly prayed and I said to the girl's father which was on the left side of the girl "Lift the girl to her feet". Her father obeyed and I continued: "Tell your daughter to walk". She walked around the big meeting hall.

The outside door was open and she went out to the yard. The people thanked and praised God. The great miracle became reality.

The girl was twelve, the paralysis had happened when she was four, she had been eight years in a wheel chair. I left in a different direction and thanked Jesus which made for us great wonders to glorify his own name.

## SECOND MIRACLE. NEAR THE PREVIOUS, AGAIN MAIN CHURCH SERVICE

When the church service was over God said to me "When you get home call Eja". We were former classmates. When I got home, I called her right away. Back then the phones were still landlines phones.

The phone was answered and she said how did you know to call so precisely? I was sent home to die. It was a special disease like cancer. Six times my intestines were operated on. For some reason some kind of hole was formed in my gut and caused great problems.

Helsinki's top Doctors couldn't cure the disease. I was sent home to die.

I ask her "Can I stop in and greet you?"

"Welcome. It would be nice to talk".

She spoke Swedish but also Finnish quite well. She was Swedish and wealthy.

When we meet, she lay in bed with a stocking cap on. Because of the medicine her hair was completely gone. She weighs 35 kilograms. She was dressed warm even though it was a warm spring.

We talked about religious things. She said "Because of five things I can't give my life to Jesus".

I said "Nevertheless, God can heal you and do a great miracle.

We prayed together and I gave her Eino Sirkiä's music cassette tape which had real beautiful heavenly songs. I blessed her and drove home.

I forgot the whole thing. I prayed for her often though.

Then came Christmas eve. In the middle of the busy city, I meet Eja's mother. We cheerfully greeted and of course I asked how Eja is getting along.

Surprise, surprise! Just wait and soon she will come out of that ladies shop. She's in there doing Christmas shopping.

It was a great reunion. God had helped and made a real miracle to a 28-year-old woman.

With God all is possible. It was a great Christmas miracle. God deserves complete thanks and glory.

Eja lived decades and got to see her grandchildren. Thanks to God. She got to experience that there is God who hears prayers and really can help.

Amen.

## THE THIRD LOVE MIRACLE FROM GOD. HE LOVES AND IS ABLE & WANTS TO HELP

I met this woman and her boyfriend at a Christian missions' thrift store in Southern Finland. Due to her lifestyle and intoxicants and alcohol she became seriously ill. Familiar substances from around the world.

Her nurse friend called me and ask" Can we come there to your prayer center?"

"I would like to bring a friend from the hospital that also knows you."

I said welcome.

Two caretakers brought her and right away I recognized the friend. We prayed as a group for her. There were about 14 people then. She asked me to visit her in the health center the next day. I did since I had to keep my promise.

She was in really bad shape, wearing a wool coat and wool socks, and she weighed less than 40 kilograms. We prayed again and she told: "Soon there I will be moved to a bigger unit where I can be taken care of better.

That's what happened. That was the last exam on a hospital bed by the care of three doctors. The doctors had done all they humanly could but they couldn't do anymore. The opinion they gave was very severe, going to eternity was very near. An hour or three at the most.
